VALT 2

➤ **RELEASE APRIL 2025**

A WALL STOPS YOUR WI-FI, LORA PASSES.

LoRa?

LoRa **radio frequency communication technology** excels in complex environments (large walls, forests, etc.) thanks to its **ability to pass through physical obstacles**, reducing dead zones common with Wi-Fi.

Under optimal conditions, the range goes up to

700 M AROUND THE PC

700 m

? What happens if a player goes out of range?

- **PC remembers player (no score reboot)**
- The player can still play normally
- His points will not be counted until he returns

PLAY AGAIN BECOMES MANDATORY.

You don't quit a game you haven't mastered yet...
Classes improve gameplay and your profitability.

SOLDIER

- 2x more ammo and rapid fire
- Strobe light
- Gives a shield to allies

ENGINEER

- The only one to interact with the objective tags
- Gives ammo to allies

CARER

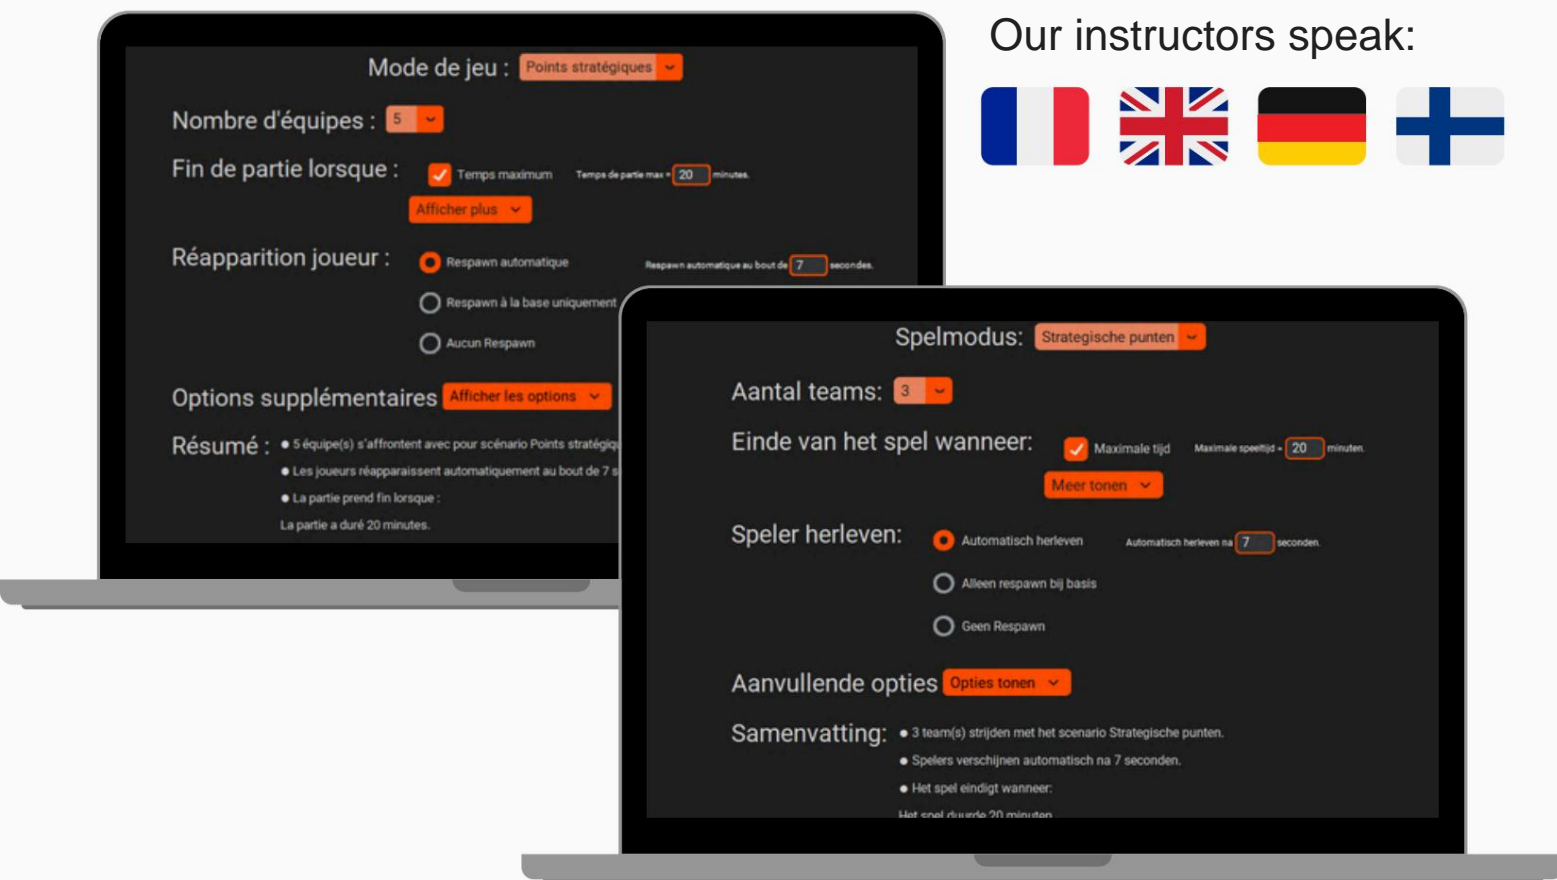

- Revives eliminated allies

The class system is an enableable feature. It adds great depth to the game for your experienced players as a customer retention strategy.

WE TRAIN YOU, YOU MASTER IT.

**INCLUDED: software & hardware training
(in person or video)**
